

Please help us STOP Deepan Budlakoti's Deportation!

Deepan is pursuing several legal strategies to challenge the unjust laws that are being used against him. He has received a lot of pro bono support from lawyers and human rights organizations. However, funding will allow him to pursue other important new avenues.

We humbly encourage all those interested & able to provide support financially to consider donating to Justice for Deepan. Any amount helps! The road ahead is full of expenses, and any funds help us cover the various costs of an entirely volunteer run campaign.
